

Ward - Heath

Councillors

Martin Blencowe – Labour
Andrew Riley - Labour

Area

Heath covers 447 hectares. This represents 1.1% of the total area of East Staffordshire.

2001 & 2011 Census

The Census which takes place every ten years provides the most authoritative statistics on our local population. The 2011 Census work has started but the first results from this will not be available until September 2012, and this will initially be at a local authority level. Further results will be released by the Office for National Statistics throughout 2013/14. Therefore, many of the statistics throughout this report refer to the 2001 Census.

Summary statistics from the 2001 Census of Population

Actual	Heath	East Staffordshire	England & Wales
Population	6,049	103,770	52,041,916
Total permanent households	2,447	42,717	21,660,475
Percentage	%	%	%
Male	48.5	48.7	48.7
Female	51.5	51.3	51.3
Ethnic minority	1.0	6.1	8.7
Religion – Christian	86.0	77.4	71.8
No Religion	8.2	11.5	14.8
Children aged 0-15	22.7	21.2	20.2
People aged 16-74	70.5	71.7	72.2
People aged 75+ years	6.8	7.1	7.6
Employed (of those aged 16-74)	64.1	63.1	60.6
Looking after home/family (of those aged 16-74)	6.8	6.6	6.5
Retired (of those aged 16-74)	14.9	14.5	13.6
Occupation – Manager or Senior Official	10.5	15.1	15.1
Occupation – Process, Plant or Machine Operative	17.5	12.1	8.5
Households with no car	24.7	23.2	26.8
Households with 2 or more cars	26.5	32.6	29.4
Travel to Work – by Bike or On Foot	20.7	15.1	12.8
Travel to Work – Drive a Car or Van	58.3	61.8	55.2
Residents with limiting long term illness	16.5	17.1	18.2
Residents who described their health as 'not good'	7.5	7.9	9.2
Residents who provide unpaid care	9.2	10.0	10.0
Owner occupied households	75.4	75.8	68.9
Rented from a Council or RSL	19.0	14.1	19.2
No Central Heating	16.3	15.3	8.5
Pensioner living alone	14.7	14.0	14.4
Single person households	25.9	27.7	30.0
Lone parent households	6.6	5.7	6.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census data show that when compared to East Staffordshire and England & Wales, Heath has:

- A smaller Black & Minority Ethnic population
- A higher proportion of Christians and a lower proportion with no religion
- A higher proportion of children
- A lower proportion over the age of 75 years
- A higher proportion of residents who are employed and a higher proportion who are retired
- A higher proportion of residents who look after the family/home
- A lower proportion of residents whose occupation is manager or senior official
- A higher proportion of residents whose occupation is process, plant or machine operatives
- A higher proportion with no car than the Borough average; a lower proportion with 2 or more cars
- A higher proportion who travel to work by bike/foot and a lower rate than the Borough who drive
- A lower proportion of residents with a limiting long term illness and 'not good' health
- A lower proportion of residents who provide unpaid care
- A lower proportion of owner occupied & more rented from the Council/RSL than the Borough rate
- A higher proportion of households without central heating
- A lower proportion of single person but a higher proportion of lone parent households
- A higher proportion of pensioners living alone

Population

The most authoritative population estimates are produced every ten years based on the Census of Population. The 2001 Census gives the population of Heath as 6,049, which is a rise of 1.7% since 1991. There was a slight change to the boundary in May 2003.

Age of Resident Population in 2001 - %

	Heath	East Staffordshire	England & Wales
Under 16	22.7	21.2	20.2
16 to 19	5.1	4.8	4.9
20 to 29	10.3	10.6	12.6
30 to 59	41.7	42.6	41.5
60 to 74	13.4	13.7	13.3
75 and over	6.8	7.1	7.6
Average Age	38.0	38.6	38.6

Source: 2001 Census Area Statistics

The above figures are updated to produce mid year population estimates in the inter-censal period. The latest figures are for 2009 and these estimate the population of Heath to be 5,940, which is a fall of -1.8% on the 2001 Census figure.

Mid 2009 Population Estimates by Broad Age Group

	All Ages	Children 0 - 15	Working Age 16-64M/59F	Older People 65M/60F & over
Heath	5,940	20.4	59.7	19.9
East Staffordshire	108,800	19.6	60.0	20.4
Staffordshire	828,700	17.9	60.4	21.7
West Midlands	5,431,100	19.4	60.6	20.0
England	51,809,700	18.7	61.9	19.3

Source: Office for National Statistics Crown Copyright 2010

In addition to the ward level mid year population estimates the Office for National Statistics has produced parish level mid year estimates. The latest are for 2009. Please note these are estimates.

Mid-2009 Population Estimates for Parishes

Parish Name	Ward	All Ages	Children Aged 0 to 15	Young People 16 to 24	Those Aged 25 to 59	Older People Aged 60+
Uttoxeter	Town & Heath	12770	2566	1412	5966	2826

Ethnic Group – Resident Population in 2001 - %

	Heath	East Staffs	England & Wales
White	99.0	93.9	91.3
Mixed	0.3	0.9	1.3
Asian or Asian British	0.6	4.3	4.4
Black or Black British	0.1	0.6	2.2
Chinese or Other Ethnic Group	0.0	0.3	0.9
Black & Minority Ethnic	1.0	6.1	8.7

Source: 2001 Census Area Statistics

Religion – Resident Population - 2001

In the 2001 Census 86.0% of Heath residents stated their religion to be Christian. This is above the East Staffordshire average of 77.4% and the England & Wales average of 71.8%. 8.2% responded with 'No Religion'. This is below the East Staffordshire average of 11.5% and the England & Wales average of 14.8%. Christianity is the only major religion in Heath. All other religions each account for less than 1.0% of the local population. This contrasts with the picture for the whole Borough, as Islam is the religion of 4.0% of East Staffordshire residents. However, it is in line with the very low Black & Minority Ethnic (BME) population in Heath.

Key points from the latest population data show that when compared to East Staffordshire and England, Heath has:

- A higher percentage of children
- A lower percentage of working age residents
- A similar percentage of older people
- A lower average age (2001)
- A much smaller Black & Minority Ethnic population
- A higher percentage of Christians and a lower percentage of residents who have no religion

Economic Activity

Economic Activity – Resident Population Aged 16 to 74 - %

	Heath	East Staffordshire	England & Wales
Employed	64.1	63.1	60.6
Unemployed	3.1	3.1	3.4
Economically active full-time students	2.3	2.1	2.6
Retired	14.9	14.5	13.6
Economically inactive students	2.6	3.1	4.7
Looking after home/family	6.8	6.6	6.5
Permanently sick or disabled	3.7	4.3	5.5
Other economically inactive	2.6	3.2	3.1

Source: 2001 Census Area Statistics

69.5% of all Heath residents aged 16 to 74 are economically active (full and part-time employed, self-employed, unemployed or economically active full-time student). This is above the East Staffordshire average of 68.3% and the England & Wales average of 66.5%.

Key points from the 2001 Census economic activity data show that when compared to East Staffordshire and England & Wales, Heath has:

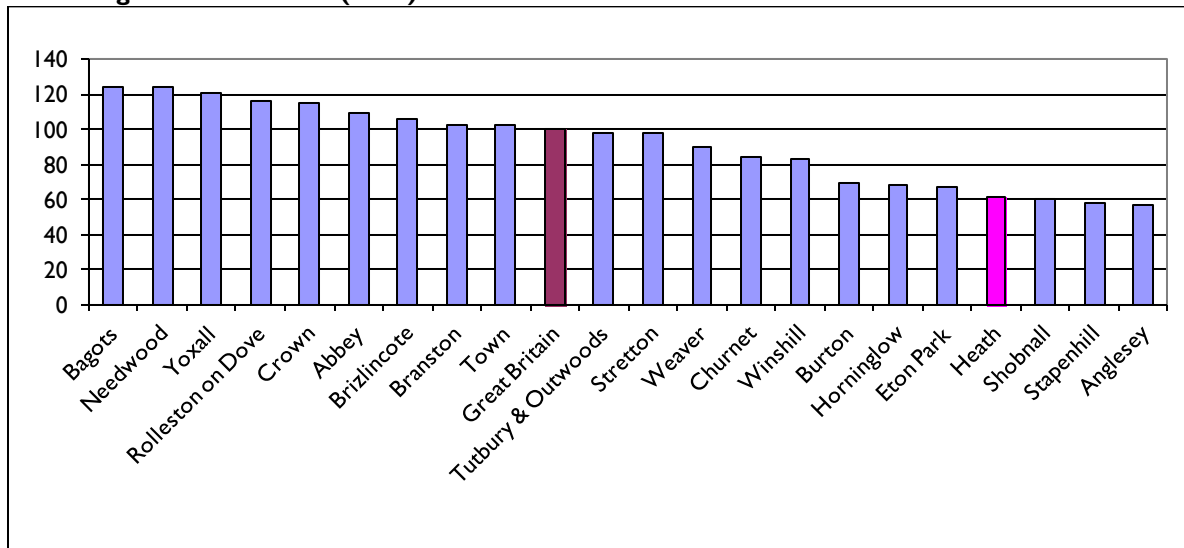

- A higher employment rate
- A higher proportion of economically active full-time students than the Borough average
- A lower proportion of economically inactive students
- A higher proportion of retired residents
- A higher proportion of those who are looking after the home/family
- A lower proportion of those who are permanently sick or disabled
- A lower 'other' economically inactive rate

Occupation Groups – Resident Population Aged 16-74 - %

	Heath	East Staffs	England & Wales
Managers & Senior Officials	10.5	15.1	15.1
Professional	6.0	9.4	11.2
Associate Professional & Technical	8.1	11.0	13.8
Admin & Secretarial	8.9	11.3	13.3
Skilled Trades	14.6	12.9	11.6
Personal Service	7.3	6.5	6.9
Sales & Customer Service	8.1	6.8	7.7
Process, Plant & Machine Operatives	17.5	12.1	8.5
Elementary e.g. labourers, porters	19.1	14.7	11.9

Source: 2001 Census Area Statistics

Knowledge Worker Score (2001)

Source: Local Knowledge; Census 2001

The Knowledge Worker Score is an index showing the proportion of working age residents that are employed in knowledge occupations. These occupations are based on the following SOC groups:

- 1) Managers and Senior Officials
- 2) Professional Occupations
- 3) Associate Professional and Technical Occupations

The national average is 100 – if the figure is below 100 for a ward then a lower proportion of its residents work in knowledge occupations.

Key points from the 2001 Census occupation group data show that when compared to East Staffordshire and England & Wales, Heath has:

- A lower proportion of managers and senior officials, professionals, associate professional and technical and admin and secretarial occupations
- A higher proportion of skilled trades, personal service, sales and customer service, process, plant and machine operatives and elementary occupations.
- A lower proportion of knowledge workers than the Great Britain average.

Industrial Groups – Resident Population Aged 16-74 in Employment - %

	Heath	East Staffordshire	England & Wales
Agriculture; Hunting; Forestry & Fishing	1.7	2.1	1.5
Mining & Quarrying	0.3	0.3	0.3
Manufacturing	28.0	22.7	15.0
Electricity; Gas & Water Supply	0.2	0.8	0.7
Construction	7.6	7.0	6.8
Wholesale & Retail Trade; Repair of Motor Vehicles	18.3	17.3	16.8
Hotels & Restaurants	4.7	4.9	4.8
Transport; Storage & Communication	5.7	6.5	7.0
Financial Intermediation	1.4	1.9	4.7
Real estate; Renting & Business Activities	8.7	10.4	13.0
Public Administration & Defence; Social Security	3.2	3.5	5.7
Education	6.8	7.5	7.8
Health & Social Work	8.3	10.5	10.8
Other	5.0	4.5	5.2

Source: 2001 Census Area Statistics

Key points from the 2001 Census Industry data show that when compared to East Staffordshire and England & Wales, Heath has:

- A higher proportion in manufacturing, construction and wholesale & retail trade, repair of motor vehicles.
- A lower proportion of residents employed in hotels & restaurants, transport, storage & communications, financial intermediation, real estate, renting & business activities, public administration and defence, social security and education and health & social work.

Travel to Work Methods – All People Aged 16-74 in Employment - %

	Heath	East Staffs	England & Wales
Work from home	6.9	9.6	9.2
Underground; metro; light rail; Tram	0.0	0.0	3.0
Train	0.5	0.8	4.1
Bus; Mini Bus or coach	2.6	3.7	7.4
Motorcycle; Scooter; moped	0.6	1.0	1.1
Driving a car or van	58.3	61.8	55.2
Passenger in a car or van	10.2	7.1	6.3
Taxi or minicab	0.0	0.6	0.5
Bicycle	3.7	4.1	2.8
On foot	17.0	11.0	10.0
Other	0.3	0.4	0.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census Travel to Work data show that when compared to East Staffordshire and England & Wales, Heath has:

- A lower proportion of residents who work from home
- A lower proportion of residents who travel by bus, mini bus or coach
- A lower proportion of residents who drive to work than the Borough average
- A higher proportion of residents who are passengers in a car or van
- A lower proportion of residents who use a bicycle than the Borough average
- A significantly higher proportion who travel on foot

Number of Employees & Proportion of Full-time & Part-time Employment – 2009

	Number of Employees	% Full time	% Part time
Heath	1,000	78.2	21.8
East Staffordshire	53,000	70.3	29.7
Staffordshire	309,300	68.0	32.0
England & Wales	23,823,600	67.9	32.1

Source: Business Register and Employment Survey 2009 (Figures are rounded to nearest 100)

These figures exclude farm agriculture

Key points from the 2009 Employment Survey data show that when compared to the East Staffordshire average, Heath has:

- A higher proportion of full-time employees
- A lower proportion of part-time employees

Unemployment

April 2011	Heath	East Staffordshire	Staffordshire	England
Total unemployed - %	1.9	2.9	2.8	3.7
Of which:				
% aged under 25	28.6	31.1	31.7	28.2
% unemployed for over 12 months	11.4	8.2	11.4	14.0

Source: Nomis – Claimant Count

Key points from the unemployment data show that when compared to Staffordshire and East Staffordshire, Heath has:

- A lower unemployment rate
- A lower youth unemployment proportion
- A higher long term unemployment proportion than the Borough average

Education

Key Stage 2 Test Results in 2010 - %

Key Stage 2 Results	Both English & Maths	English	Maths	Average Point Score
2010	%		%	
Windsor Park CofE Middle	63%	66%	83%	26.6
Staffordshire Average	74	81	81	27.6
England Average	73	80	79	27.5

The table shows the percentage of eligible pupils achieving Level 4 or above in each subject. Level 4 is the level expected of most 11 year olds.

The School Census summaries, at a ward level, some of the information set out above. It is collected by Staffordshire County Council and covers nursery, primary, middle, secondary and special schools in the maintained sector in Staffordshire. It includes information on pupils by gender, free school meal eligibility, ethnicity, special educational needs, travel to school methods and gifted and talented status. If there are less than 10 children in one category the percentage is given as Suppressed.

School Census 2010

2010	Heath	East Staffordshire	Staffordshire
% of pupils who are girls	46.7	48.8	48.8
% of pupils who are boys	53.3	51.2	51.2
% of BME pupils	3.1	18.6	7.2

Qualifications Held by Resident Population Aged 16-74 in 2001 - %

	Heath	East Staffs	England & Wales
Had no qualifications	38.9	31.8	29.1
Qualified to degree level or higher	9.2	16.0	19.8

Source: 2001 Census Area Statistics

Key points from the schools data show that when compared to Staffordshire and England averages, schools in and around Heath have:

- A lower percentage of eligible pupils achieving L4+ at Key Stage 2 in all subjects
- A higher level of absence at the high school
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C
- A higher percentage of eligible pupils achieving 5 or more GCSEs at grades A-C that include English & Maths
- A higher percentage of school leavers continuing with structured learning in 2010
- A lower percentage of school leavers not yet settled in any full-time positive activity in 2010
- A lower average point score per exam and a lower average point score per student than the England average at GCE level (post 16)
- A higher percentage of pupils receiving free school meals at St Mary's primary school but a lower percentage of pupils receiving free school meals at the other schools

Key points from the Census show that when compared to East Staffordshire and England & Wales averages, residents in Heath have:

- A higher proportion of residents with no qualifications
- A lower proportion of residents qualified to degree level or above

Key points from the 2010 School Census show that when compared to East Staffordshire averages, pupils in Heath are:

- Less likely to be of a BME origin
- Less likely to be subject to School Action or School Action Plus
- More likely to have a SEN statement
- Less likely to travel to school by car
- More likely to walk to school
- Less likely to be termed gifted or talented.

Health

Key Health Comparators - %

2001 Census Area Statistics	Heath	East Staffordshire	England & Wales
Residents with limiting long-term illness (2001)	16.5	17.1	18.2
Residents who described their health as 'Good'	68.5	69.4	68.6
Residents who described their health as 'Fairly Good'	23.9	22.6	22.2
Residents who described their health as 'Not Good'	7.5	7.9	9.2
Residents who provide unpaid care	9.2	10.0	10.0

Average Life Expectancy (1999 – 2003)

Source: Local Knowledge; Life Expectancy at Birth

Standardised Mortality Ratio (SMR) (1999 – 2003)

Source: Local Knowledge; Standardised Mortality Ratios

The Standardised Mortality Ratio compares overall mortality in a locality with that for the UK as a whole. The ratio expresses the number of deaths in a locality as a percentage of the hypothetical number that would have occurred if the local population had experienced the sex/age specific rates of the UK in that year. The lower the figure, the lower the relative mortality.

In the table below the Health Intelligence and Clinical Evidence Team, Staffordshire Public Health have summarised some of the key health indicators. Those shaded red are statistically worse than the England average and those shaded green are statistically better. The following measurements are statistically worse for those living in Heath:

- Smoking prevalence - adults (Mosaic estimates)
- Obesity prevalence - adults
- Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates)
- Percentage of adult population doing no exercise in the last month (Mosaic estimates).

Summary of Key Health Indicators

	Heath	East Staffs
Percentage of births with a low birthweight (under 2,500 grams) (2004/08)	6.6%	9.1%
Life expectancy at birth for males (years) (2004/08)	77.2	76.9
Life expectancy at birth for females (years) (2004/08)	80.2	81.1
All-age all cause mortality rate per 100,000 population (2004/08)	650	626
Premature mortality (rate per 100,000 population aged under 75) (2004/08)	355	306
Premature mortality from circulatory diseases (rate per 100,000 people aged under 75) (2004/08)	118	80
Premature mortality from cancers (rate per 100,000 people aged under 75) (2004/08)	125	113
Mental Illness Needs Index (MINI) (rate per 100,000 population) (2000)	306	350
Percentage of population with a self reported limiting long term illness (2001)	16%	17%
Smoking prevalence - adults (Mosaic estimates) (2009)	28%	25%
Obesity prevalence - adults (Mosaic estimates) (2009)	18%	17%
Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates) (2009)	22%	24%
Percentage of adult population doing no exercise in the last month (Mosaic estimates) (2009)	53%	51%

Source: Health Intelligence and Clinical Evidence Team, Staffordshire Public Health

Key points from the 2001 Census show that when compared to the East Staffordshire and England & Wales averages Heath has:

- A lower proportion of residents suffering with a limiting long-term illness
- A lower proportion of residents who described their health as 'Not Good'
- A lower proportion of residents who provide unpaid care

Key points from the Healthy Lifestyle Behaviours Survey show that when compared to the Borough averages Heath is thought to have:

- A higher proportion of residents who binge drink, are obese and who smoke
- A lower proportion of adults that eat 5 or more portions of fruit and vegetables a day

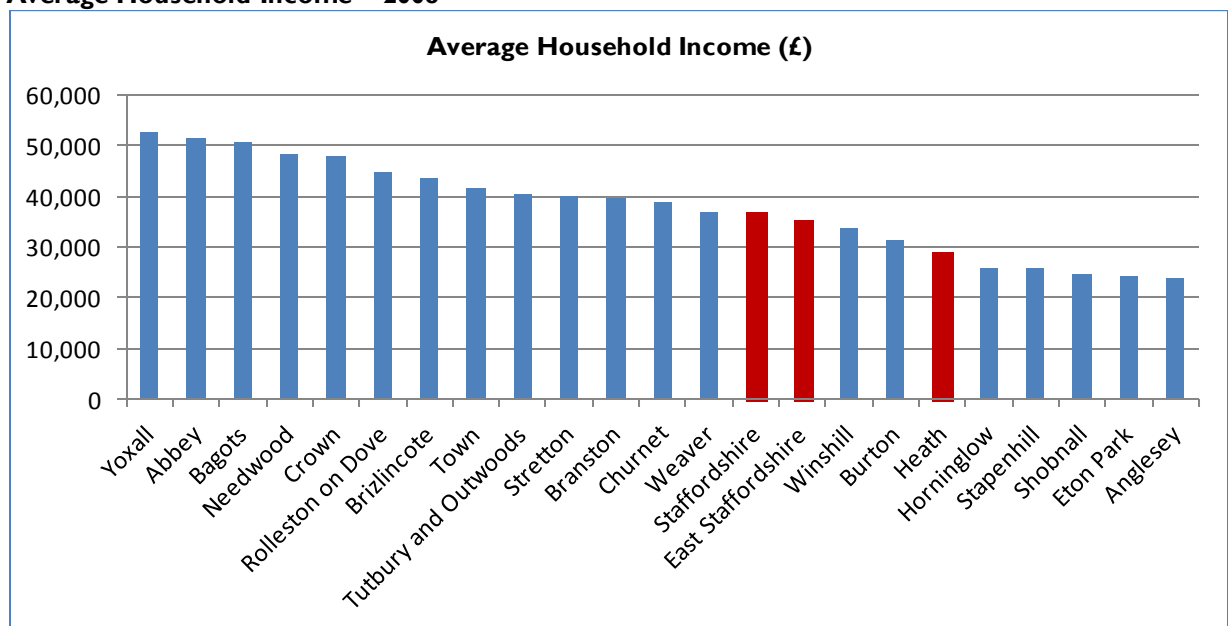

Key points from the 1999 – 2003 life expectancy and standardised mortality ratio data show that when compared to the national average Heath has:

- A lower than average life expectancy
- A higher than average SMR

Income

The average household income across East Staffordshire in 2008 was £35,500, which is slightly below the Staffordshire average of £36,800. However, across Heath the average household income in 2008 was £28,900, which is below the Borough and County figures.

Average Household Income – 2008

DWP Benefit Claimants – Working Age Clients – May 2010

Proportion of resident population aged 16-64 claiming benefits			
%	Heath	East Staffordshire	Great Britain
Total claimants	11.6	13.3	14.7
Job seekers	2.3	3	3.5
ESA and incapacity benefits	5.6	6	6.7
Lone parents	1.2	1.5	1.7
Carers	1.2	1.1	1.1
Others on income related benefits	0.3	0.5	0.5
Disabled	0.9	1	1
Bereaved	0.3	0.3	0.2

Source: DWP Benefit Data – Nomis

Key points from the income data show that when compared to East Staffordshire, Heath has:

- An average gross household income of £28,900, which is below the East Staffordshire average (£35,500)
- A lower proportion of total benefit claimants
- A lower proportion claiming each individual benefit with the exception of Carers Allowance.

Housing

At the time of the 2001 Census there were 2,447 household spaces with residents in Heath. There was also an additional 51 household spaces without residents, making a total of 2,498 household spaces in Heath in April 2001.

Households – 2001 Census Findings - %

	Heath	East Staffordshire	England & Wales
One person households	25.9	27.7	30.0
Pensioner living alone	14.7	14.0	14.4
Other all pensioner households	10.1	9.6	9.4
Contained dependent children	33.6	31.0	29.5
Lone parent households with dependent children	6.6	5.7	6.5
Owner occupied	75.4	75.8	68.9
Rented from Council	12.8	8.1	13.2
Rented from Housing Association or RSL	6.2	6.0	6.0
Private rented or lived rent free	5.6	10.2	11.9
Without central heating	16.3	15.3	8.5
Without sole use of bath, shower or toilet	0.1	0.3	0.5
Have no car or van	24.7	23.2	26.8
Have 2 or more cars or vans	26.5	32.6	29.4
Average household size (number)	2.5	2.4	2.4
Average number of rooms per household	5.3	5.7	5.3

Source: 2001 Census Area Statistics

Key points from the housing data show that when compared to East Staffordshire, households in Heath are:

- Less likely to be single person households
- More likely to be pensioners living alone or all pensioner households
- More likely to contain dependent children and more likely to be lone parent households
- Slightly less likely to be owner occupied than the Borough average
- More likely to be rented from the Council or an RSL than the Borough average
- Less likely to be private rented or living rent free
- More likely to be without central heating
- More likely to have no car or van than the Borough average
- Less likely to have 2 or more cars or vans
- More likely to be larger in terms of the average number of people in the household
- More likely to be smaller than the Borough average in terms of the number of rooms

Households – 2001 Census – Accommodation Type - %

	Heath	East Staffs	England & Wales
Percentage living in a detached house	19.9	31.7	22.8
Percentage living in a semi-detached house	58.0	32.8	31.6
Percentage living in a terraced house	14.1	25.7	26.0
Percentage living in a flat or maisonette	8.0	9.4	19.2
Percentage living in a caravan or mobile home	0.0	0.4	0.4

Source: 2001 Census Area Statistics

Key points from the 2001 Census show that when compared to East Staffordshire, households in Heath are:

- Less likely to be in a detached house
- Significantly more likely to be in a semi-detached house
- Significantly less likely to be in a terraced house
- Less likely to be in a flat or maisonette and less likely to be in a caravan or mobile home

Private Sector House Condition Survey 2008

The 2008 House Condition Survey was distributed to a random sample of 1,250 private sector households and entailed full internal and external surveys plus supporting interviews with the occupying households. At the time of the survey there were 41,968 private dwellings, 38,849 of which were occupied (92.6%) and 3,119 (7.4%) were vacant. Of these 14,048 households (36.2%) are elderly and 12,464 households are economically vulnerable (32.1%). There is a mixed age profile with 16,596 dwellings (39.5%) constructed pre-1945 and 11,434 dwellings (27.2%) constructed pre-1919.

Housing conditions in the Borough are better than the national average for private housing; however, housing condition problems remain significant:

- 13,445 dwellings (32.0%) are non-decent
- 8,137 dwellings (19.4%) exhibit Category I hazards

	Category I Hazards	Non-decent Homes	Decent homes Energy Failure Rates	Fuel Poverty
Burton & Horninglow	30.3	50.3	25.9	39.2
Inner Burton (Anglesey, Eton Park and Shobnall)	29.9	39.9	18.8	41.7
Rural North (Abbey, Churnet & Weaver)	23.9	31.3	22.5	33.6
Rural South (Bagots, Crown, Needwood, Rolleston on Dove, Tutbury & Outwoods, Yoxall)	21.0	39.5	26.9	44.6
Winshill & Stapenhill	14.5	23.5	12.3	32.9
Uttoxeter (Heath & Town)	12.0	22.8	9.6	27.2
Outer Burton (Branston, Brizlincote and Stretton)	8.4	18.5	11.1	27.2
Borough Average	19.4	32.0	18.1	35.5

Category I hazards

These include falls on steps/stairs, excess cold, dampness/mould and crowding/space. Category I hazards are not evenly distributed across the Borough but are higher across the Inner Burton and Burton/Horninglow areas

Non-decent homes

The most common reasons for failing the Decent Homes Standard relate to energy efficiency and Category I hazards. Patterns of non-decent housing are similar to those for Category I hazards with higher rates for the Inner Burton and Burton/Horninglow areas. Rates of non decency are also higher in the Rural South. Poor housing conditions within the Borough are associated with households in social and economic disadvantage. A significant proportion of households living in non-decent homes are made up of the elderly (36.2%) and the economically vulnerable (48.8%).

Home energy efficiency

The home energy efficiency rates in private housing in the Borough are above the national average. East Staffordshire has an average SAP Rating of 56 compared to an average of 47 for all private housing in England. 7,585 dwellings fail the Decent Homes energy requirements representing 18.1% of all private dwellings.

Fuel Poverty

13,805 households in the Borough (35.5%) are in Fuel Poverty. The highest rates of fuel poverty are associated with Inner Burton and the Rural South. Rates of fuel poverty are also higher for households in pre-war housing, terraced housing and converted flats. Households most affected include young single households, single parent families and the elderly.

Key points from the 2008 House Condition Survey show that when compared to the East Staffordshire average, private housing stock in the Uttoxeter area is:

- Less likely to exhibit Category I Hazards
- Less likely to be non-decent
- Less likely to fail the Decent Homes Energy Rating
- Less likely to be in Fuel Poverty

Register of Electors 2010

The table below shows a count of the number of properties at the time of the 2010 Register of Electors. It shows a total of 2,598 properties in Heath ward, which is an increase of 4.0% on the 2001 Census figure. This is below the East Staffordshire increase of 10.4%. There are obviously differences in the way the information is produced but it gives an indication of the change in the number of properties during this period.

Electoral Area	Properties	% of Total	Void Properties	Void % of Props
BB - Uttoxeter Heath	1,013	39%	37	4%
BC - Uttoxeter Heath	1,585	61%	56	4%
Heath	2,598	5%	93	4%
East Staffordshire	49,048	100%	3,385	7%

Index of Local Deprivation 2010

The Indices of Deprivation 2010 (ID 2010) is a measure of multiple deprivation at a small area level. The small geographical areas the ID 2010 is based upon are called Lower Layer Super Output Areas (LSOA's) and each account for between 1,000 and 3,000 people. The purpose of basing the Indices upon LSOA's is to pinpoint small areas of deprivation that may otherwise be hidden within larger wards. The ID 2010 consists of an overall measure of deprivation and seven specific aspects – Income, Employment, Health and Disability, Education, Skills and Training, Barriers to Housing and Services, Living Environment and also Crime.

There are 32,482 LSOA's in England and four of these are located within Heath ward. Below is a summary of the key points arising from the ID 2010 for Heath's LSOA's. If the LSOAs fall within the top 10% or top 20% most deprived they are considered here to be deprived:

- **Overall Deprivation:** Three of Heath's four LSOA's have seen an improvement on their 2007 rankings. One LSOA has seen a deterioration but it is still within the top 30% least deprived. None of the LSOAs are deprived.
- **Income Deprivation:** None of the LSOAs experience income deprivation. The two LSOAs with the worst score fall within the top 40% most income deprived.
- **Employment Deprivation:** None of the LSOAs experience employment deprivation. The two LSOAs with the worst score fall within the top 50% most employment deprived.
- **Health & Disability Deprivation** None of the LSOAs experience health and disability deprivation. The most deprived LSOA in Heath for this measurement falls within the top 40% most deprived.

- **Education, skills and training deprivation:** There is some deprivation in terms of education, skills and training. One LSOA falls within the **top 20% most deprived** and one is just outside this.
- **Barriers to housing and services deprivation:** None of the LSOAs are deprived in terms of barriers to housing and services and in fact one falls within the top 10% least deprived and another within the top 20% least deprived.
- **Crime Deprivation:** None of the LSOAs are deprived in terms of crime and in fact two fall within the top 10% and one within the top 20% least deprived.
- **Living environment deprivation:** There is some deprivation in terms of the living environment. One LSOA falls within the **top 20% most deprived** and one is just outside this.

Heath ward does not exhibit overall deprivation. However there are some aspects of deprivation, in particular in terms of the Living Environment and Education, skills and training domains. Also, there seems to be a divide in the ward with two of the LSOA's being relatively more deprived than the other two.

Place Survey 2008 – 2009

All local authorities are required to undertake a Place Survey containing a standard set of questions which are designed to capture local people's views, experiences and perceptions. The aim is to use the findings to ensure that improvements for an area reflect local views and preferences. A random sample of 3,000 residents (aged 18 and over) were selected and 1,134 responses were received – a response rate of 38%. The findings set out below were calculated as a proportion of respondents who answered each question and exclude those who did not reply. The tables include a column for ranking within East Staffordshire, with a ranking of 1 being the most satisfied and 21 being the least satisfied.

The Local Area

Respondents were asked to select five factors they felt were most important in making somewhere a good place to live and they were then asked to select the five that were most in need of improvement in their local area. The results for East Staffordshire as a whole are set out below:

Most important	Most in need of improvement
The level of crime (65%)	Activities for teenagers (47%)
Clean streets (45%)	Level of traffic congestion (37%)
Health services (41%)	Road and pavement repairs (31%)
Affordable decent housing (36%)	The level of crime (26%)
Education provision (28%)	Public transport (25%)

Only one factor (the level of crime) is thought to be both important and in need of improvement which suggest the Council and its partners are performing well in the areas considered to be the most important to the local residents.

Respondents were asked how satisfied or dissatisfied they are with their local area as a place to live. In Heath just 61% of respondents were very/fairly satisfied, which is below the Borough average (79%). The survey found that older respondents were more likely to be satisfied with their local area than younger respondents. Heath has a lower proportion of residents of pensionable age than the Borough average.

Respondents were asked how satisfied or dissatisfied they are with their home as a place to live. In Heath 90% of respondents were very/fairly satisfied which is equal to the Borough average. The survey found that home owners were more likely to be satisfied with their home than those who were renting. Heath has a similar proportion of home owners to the Borough average (2001 Census).

Respondents were asked how strongly they feel they belong to their immediate neighbourhood. In Heath 61% of respondents feel they very/fairly strongly belong which is equal to the Borough average. The survey found that older respondents (65+) were more likely to feel they belong to their immediate neighbourhood and those who rent privately were less likely to feel so.

% of respondents who are:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Satisfied with local area	61	79	↓	20	80	↓
Satisfied with home as a place to live	90	90	→	13	N/A	N/A
Feel they belong to immediate neighbourhood	61	61	→	11	59	↑

Local Public Services

This section covers perceptions of and satisfaction with local public services. Generally older respondents were more positive than younger respondents. There are a wide range of factors that may affect how people feel about their local authority and its services, such as demographic characteristics, how informed people are, and views on participation and local decision making.

In Heath the respondents are less likely to agree that local public services are:

- Working to make the area safer
- Working to make the area cleaner and greener
- Promoting the interests of local residents
- Acting on the concerns of local residents – Heath has the lowest ranking for this
- Treating all types of people fairly.

% of respondents who think local public services are:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Working to make the area safer	62	67	↓	15
Working to make the area cleaner and greener	65	71	↓	14 (joint)
Promote the interests of local residents	39	43	↓	14
Act on the concerns of local residents	37	47	↓	21
Treat all types of people fairly	57	72	↓	20

Respondents were asked how satisfied or dissatisfied they are with a number of different local services. In Heath the satisfaction levels are below the Borough average for the local hospital and local dentist services. Again older people were more positive than younger people and females were more satisfied than males.

% of respondents who are satisfied with:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Staffordshire Police	62	62	→	13 (joint)
Staffordshire Fire & Rescue	85	84	↑	8
Your GP	88	85	↑	7
Local hospital	76	78	↓	13
Local dentist	71	72	↓	10 (joint)

Respondents were asked if they had used a number of services provided or supported by the Council in the last 12 months. Compared to the Borough average, fewer Heath respondents had used museums and theatres.

% of respondents who have used the service in last 12 mths:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Local tips/Household WRC	96	90	↑	4 (joint)
Local Transport Information	64	57	↑	4 (joint)
Bus	62	57	↑	5
Sport	57	57	→	11 (joint)
Libraries	67	59	↑	4 (joint)
Museums	10	22	↓	20
Theatres	23	30	↓	15 (joint)
Parks	92	87	↑	5 (joint)

Respondents were asked to state the extent to which they agree or disagree that the County Council and Borough Council provide value for money. Heath respondents were more likely to agree with the statements than the Borough average.

% of respondents who think:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council provides value for money	32	31	↑	11 (joint)
Staffordshire County Council provides value for money	38	30	↑	4

Respondents were asked how satisfied they are with the way the County Council and Borough Council run things. Heath respondents were less likely to be satisfied with how the local authorities run things than the Borough average. In fact Heath has the lowest satisfaction level for how East Staffordshire Borough Council runs things.

% of respondents who are satisfied with the way:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council runs things	28	43	↓	21
Staffordshire County Council runs things	33	41	↓	19

Local Decision Making

The Government aims to build communities where individuals are empowered to make a difference both to their own lives and to the area in which they live. A key indicator of this is the extent to which people feel able to influence decisions affecting their local area. Respondents were asked if they feel they can influence decisions in their locality. Heath respondents are less likely to feel they can than the Borough average.

% of respondents who feel:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
They can influence decisions in their locality	14	26	↓	19	29	↓

Respect and Consideration

Compared to the Borough average Heath respondents are less likely to score positively in the following areas:

- Parents take responsibility for the behaviour of their children – the rationale behind this question is to focus local authorities and their partners on supporting effective parenting and to take action to ensure parents are held responsible where their children behave in an unacceptable manner.
- People from different backgrounds get on well together – this measure is widely recognised as a key indicator of a cohesive society. The Local Government White Paper sets out the aim of creating strong and cohesive communities.
- People do not treat each other with respect and consideration – the rationale behind this question is to encourage local authorities and their partners to take action to promote strong communities with shared values where community members treat each other with respect and consideration.
- They have been treated with respect and consideration by local public services – local authorities are encouraged to consider this indicator in terms of narrowing gaps between perceptions for different group(s).

% of respondents who feel:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Parents take responsibility for the behaviour of their children	27	30	↓	11	30	↓
People from different backgrounds get on well together	62	71	↓	19	76	↓
People do not treat each other with respect & consideration	43	29	↓	18	31	↓
They have been treated with respect & consideration by local public services	61	71	↓	18	72	↓

Community Safety

Respondents were asked how safe they feel when outside in their local area during the day and after dark. Across the Borough those who were dissatisfied with their local area as a place to live were more likely to feel unsafe.

Heath respondents were less likely to feel safe after dark but more likely to feel safe during the day than the Borough average.

% of respondents who feel:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Safe after dark	51	54	↓	15
Safe during the day	94	90	↑	11 (joint)

Anti-social Behaviour

Respondents were asked to think about their local area and to say whether each of a number of different types of antisocial behaviour was a very/fairly big problem. Local authorities are the key partner in tackling ASB and have statutory duties to enforce ASB legislation. Heath scores negatively compared to the Borough average for all the aspects of anti-social behaviour listed in the questionnaire.

% of respondents who feel the following ASB is a problem:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Noisy neighbours or loud parties	22	13	↓	18	N/A	N/A
Teenagers hanging around the streets	51	41	↓	14	N/A	N/A
Rubbish or litter lying around	35	27	↓	17	N/A	N/A
Vandalism/graffiti to property/vehicles	28	26	↓	15	N/A	N/A
People using or dealing drugs	42	28	↓	16	31	↓
People being drunk or rowdy in public	28	24	↓	12	29	↑
Abandoned or burnt out cars	8	5	↓	18 (joint)	N/A	N/A

Confidence in Police

Respondents were asked whether they agree or disagree that the police and other local public services seek people's views about dealing with ASB and crime in their local area. This measure is being employed as a proxy to measure confidence in local agencies to tackle the community safety issues that matter to local people. Heath respondents were more likely to agree with this statement (28%) than the Borough average (26%).

Respondents were then asked whether they agree or disagree that the police and other local public services are successfully dealing with ASB and crime in their local area. Heath respondents were less likely to agree with this statement (16%) than the Borough average (26%).

% of respondents who agree the police & other local services are:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Seeking people's views about dealing with ASB & crime	28	26	↑	9 (joint)	25	↑
Successfully dealing with ASB & crime	16	26	↓	20	26	↓

Additional Questions

East Staffordshire Borough Council added additional questions to the Place Survey about the local bus services. Older respondents were more likely to be satisfied with each element than younger respondents as were non disabled respondents compared with disabled respondents. Heath scores below the Borough average for satisfaction in terms of 'How easy buses are to get on and off' and 'The state of the bus stops'.

% of respondents who are satisfied with:	Heath	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
The frequency of buses	65	61	↑	9
The number of bus stops	87	76	↑	4 (joint)
The state of the bus stops	67	71	↓	15
Whether buses arrive on time	67	59	↑	4
How easy buses are to get on & off	67	73	↓	14
The bus service overall	67	60	↑	7
