

Q11 Do you support Project J: the proposal for a new Burton and South Derbyshire - Specialist Education Offer?

Answered: 826 Skipped: 35

ANSWER CHOICES	RESPONSES	
Strongly support	21.07%	174
Support	29.90%	247
Do not support	17.07%	141
Strongly do not support	6.78%	56
Undecided	25.18%	208
TOTAL		826

#	ANY COMMENTS?	DATE
1	Hse existing facilitie and organisations.	10/11/2020 4:03 PM
2	I strongly support this project as a vital and continued commitment to education in Burton and upskilling to meet the ever evolving needs of the employment landscape. I'm also significantly in favour of the potential to develop the project into not just social & health care, but STEM subjects to support the continued rising importance of data, science and technology in an increasingly competitive technologically advance job market.	10/11/2020 3:59 PM
3	Led by business needs	10/11/2020 3:48 PM
4	Enough learning centres exist already	10/11/2020 12:37 PM
5	I think there is room to improve the Education and Support offer in the local area but I'm not sure this is the best use of funding that should be used to improve the town centre. If this funding is to be used to support the Brewhouse it would be best used to develop the facilities and offering and make this into a venue and service that meets the needs of the community.	10/11/2020 10:56 AM
6	As above: sounds 'nice', isn't going to help Burton much.	10/11/2020 9:10 AM
7	I would need detailed info on the project	10/10/2020 10:21 PM
8	There is adequate provision in the town for education via Burton and South Derbyshire College and the various schools and education facilities within the Borough.	10/10/2020 9:15 PM
9	Unsure as to what this role would entail.	10/10/2020 7:41 PM
10	Not clear on the benefits	10/10/2020 7:32 PM
11	In principle. I know little about this.	10/10/2020 6:03 PM
12	yes anything to help business is good.	10/10/2020 3:21 PM
13	Support	10/10/2020 12:31 PM
14	I support any effort to increase the skillset of Burton's mixed and diverse residents, a more structured and detailed proposal would need to be looked at before passing comment.	10/10/2020 11:33 AM
15	This would be better funded by industry.	10/10/2020 11:20 AM
16	We need to look to future technology for industry	10/10/2020 12:01 AM
17	Don;t know anything of this	10/9/2020 8:00 PM
18	The existing college facilities should be improved rather than creating another competitor.	10/9/2020 5:58 PM
19	We have a college in Burotn already	10/9/2020 1:15 PM
20	Has there been any assessment of the impact of Burton Tec? Is it delivering on its promises, what are the students evaluations and experiences, are they finding relevant jobs ?	10/9/2020 1:11 PM
21	Yes Burton and other areas need a strong vocational training to include agricultural courses.	10/9/2020 12:44 PM
22	Any extra help with Education is a good thing . It depends how it is implemented and how or who it will impact the people of Burton	10/9/2020 11:32 AM
23	No idea what you mean	10/9/2020 11:13 AM
24	Probably the only one of the 11 that I can say I support as this sounds like the sort of project this fund was intended to support as it helps people into work and it is central to the town centre. Students would support local businesses when they are able to come into town to study (if the pandemic allows)	10/9/2020 11:11 AM
25	Use and or expand existing facilities - B & SD College.	10/8/2020 6:04 PM
26	No idea what that even means!	10/8/2020 5:39 PM
27	The government should already be funding initiatives such as this. An expansion of the University Centre with specialisation for local industries is long overdue. i.e. Pharmaceuticals, Logistics and Polymer Technology at degree level. However, this proposal must be at the existing Lichfield Street site at land already cleared and earmarked for similar proposals.	10/8/2020 3:28 PM
28	As long as you involve bsdc which already does a brilliant job.	10/8/2020 1:22 PM

29	As an ex-governor of the College, I will support its future.	10/8/2020 11:01 AM
30	Any education good but would this duplicate Wolverhampton University vision d	10/8/2020 9:40 AM
31	Again, I'm not sure what this entails as it is not specific enough.	10/8/2020 9:15 AM
32	More info needed	10/8/2020 7:22 AM
33	Burton college has been weak for a long time. The money would be better spent improving their attitude to learners who cannot conform to mainstream education & tackling none attendance.	10/8/2020 6:38 AM
34	Dont knowenought to form an opinion	10/7/2020 7:14 PM
35	Building on current effective and local education and providing future and relevant jobs for a town in need of employment opportunities, which in turn has a positive and longterm benefit for local people.	10/7/2020 4:26 PM
36	Need more information to make an informed choice	10/7/2020 4:20 PM
37	This will help the college and give support to the learners who want to join the NHS	10/7/2020 8:27 AM
38	Great College that would benefit from further investment to	10/7/2020 6:51 AM
39	High standard specialist state of the art equipment and facilities free to all young people will have the greatest oppportunity for social mobility and career opportunities for the young people of Burton.	10/6/2020 1:32 PM
40	Possible white elephant. More information needed.	10/6/2020 11:06 AM
41	Already have an excellent education offer in Burton utilise funds to enhance and support this	10/6/2020 9:25 AM
42	re training and educaion are essentail in these times	10/6/2020 9:10 AM
43	Again, will help young people but needs integrating with University proposal is this goes ahead.	10/6/2020 8:42 AM
44	As the courses need to be relevant to the future jobs for young people	10/6/2020 8:17 AM
45	Building on existing vocational training is positive. Too much emphasis is placed on universities, where Burton cannot hope to compete, whilst vocational education provides tangible benefits for those neglected by traditional tertiary education.	10/5/2020 10:11 PM
46	As above	10/5/2020 8:51 PM
47	Don't know enough	10/5/2020 8:50 PM
48	For saying the college has apparently hot university status i think its poor the presence in the town and cannot see giving college more money to offer little in terms of community impact to date.	10/5/2020 8:24 PM
49	I do not know what this means? More information required.	10/5/2020 8:02 PM
50	Burton STANDS ALONE	10/5/2020 6:07 PM
51	This project seems to align nicely to the governments post-COVID economic recovery priorities, and will create the technical and digital jobs that's so desperately needed in this area	10/5/2020 4:19 PM
52	Need to put funding towards educating tomorrow's local workforce	10/5/2020 1:39 PM
53	The College gets revenue for housing the Post 16 Specialist Provision from Fountains High School.	10/5/2020 1:09 PM
54	Focussing on future technologies and industries will ensure the sustainability of the college and the employability of the areas young people.	10/5/2020 12:59 PM
55	Not clear on what this project entails.	10/5/2020 11:07 AM
56	This offers our town a unique oppportunity to develop the future skills needed in high value industries. It provides a unique oppportunity for Burton to develop specialist in demand provision that will create long lasting job creation in sectors that are currently showing high demand and growth potential.	10/5/2020 9:37 AM
57	If need is clearly demonstrated yes	10/5/2020 7:06 AM
58	I support any effort to improve the skills and educational levels of the local	10/4/2020 9:40 PM

population,.However, i feel that there are other sources of finance which would allow this scheme to progress. The information you have supplied gives no idea of what is involved and how any money would be spent. Does it involve new buildings at the college? What would be the long term benefit and how could it be assessed as being successful or not. The town fund of "up to £25 m" needs to be spent on schemes which give the " biggest bang for the Buck" and regeneration projects like building a river fronting high quality gateway development at Bargates , which ties in with the adjacent river front and bridge. network of paths and improved access points, would in my view be a more focused , successful and telling investment.

59	How about commercial funding for this?	10/4/2020 3:05 PM
60	But unsure of exactly what is being proposed and how the money would be spent	10/4/2020 1:41 PM
61	Again, upskilling younger people in the town is vital. This seems like an excellent use of funding.	10/4/2020 12:33 PM
62	Needs a robust plan linked to FE / HE etc	10/4/2020 10:19 AM
63	fURTHER EDUCATION IS DESPERATE FOR MONEY. tired equipment, poor resources, no wage rises for 10 years, courses getting shorter and shorter, i could go on and on!	10/2/2020 2:24 PM
64	A specialist education offer would greatly reduce the skills gap for those finding employment, and ensure that Burton is not left behind in growing areas of industry - just because the town has not previously attracted industries such as tech, it does not mean it cannot in the future to build a stronger local economy.	10/2/2020 2:15 PM
65	We need to set ourself out as a leading area in specialist areas.	10/2/2020 1:58 PM
