

Q2 Do you support our proposal to deliver Project A: Phase 2 of the Burton Rugby Club and Sports hub extension?

Answered: 848 Skipped: 13

ANSWER CHOICES	RESPONSES	
Strongly support	62.50%	530
Support	18.63%	158
Do not support	5.54%	47
Strongly do not support	6.49%	55
Undecided	6.84%	58
TOTAL		848

#	ANY COMMENTS?	DATE
1	Taking sport away from central Burton	10/11/2020 10:14 PM
2	If it has more sports it could become a good community hub.	10/11/2020 9:30 PM
3	Vital to young people	10/11/2020 5:20 PM
4	ditto	10/11/2020 4:03 PM
5	While I support the on going developments and expansion of Burton Rugby Club, as well as it's continued ambition to become a more widely used sports hub, I do not believe that the funds from the Towns Fund would be as worthwhile being spend on the club. Most prominently, as a privately ran & accredited Rugby/sports club, it has access to many more significant revenue and finance streams that other aspects of this bid would not, this includes but is not limited to Sports England, Rugby Union, National Lottery and private finance funding. Whilst this expansion would increase the use of the rugby club, I also believe that there are several other project proposals that would have a much wider reach and benefit from this funding.	10/11/2020 3:59 PM
6	Shobnall exists and can be developed. Rugby Club site is for community sports clubs to develop with Sport England, the sports organisations and various charities	10/11/2020 3:48 PM
7	This is not sustainable. Pubic transport to the site is poor. There is no safe cycle route. It duplicates facilities in the town at the Shobnall Leisure complex.	10/11/2020 3:04 PM
8	I don't know how this benefits the town centre.	10/11/2020 2:37 PM
9	Burton rugby club is part of the history of our town . It has a large mini and junior section run by volunteers and helps keep our children fit and learn respect and team work .	10/11/2020 2:13 PM
10	I support the idea in principle however this area recently suffered from severe flooding. What will be done to remedy this? Also, the road infrastructure in the area is barely able to cope with the increase in traffic from the school, what are the proposals for strengthening the road network?	10/11/2020 1:11 PM
11	This is an exclusive project does nothing to help people in the inner Burton Wards. Money would be better spent on supporting existing sport facilities within the Town. There are a number of sports and social clubs where a collaborative approach could bring news sports facilities for a broad range of sporting activities. An example would be the sports clubs around the councils Shobnall Leisure Complex. A public/private partnership could deliver a range of sporting activities to both supplement and complement activities at the leisure complex.	10/11/2020 12:57 PM
12	Too far away from town centre	10/11/2020 12:37 PM
13	Not my field of interest	10/10/2020 10:21 PM
14	There is a multi sport complex in the town already, namely Shobnall sports area which caters for a wide variety of sports, therefore the money would only benefit the rugby club. e	10/10/2020 9:15 PM
15	A lot of 106 money has already gone into these facilities and they have funding from the sale of their old ground	10/10/2020 7:32 PM
16	But- is this dependent on new retailing at the old ground? We really do not need more shopping, there must be doubt about its success.	10/10/2020 6:03 PM
17	This will provide enormous sporting opportunities to all ages and both sexes. Encouraging fitness, team play, respect to name but a few	10/10/2020 3:08 PM
18	it will be of massive benefit to the community	10/10/2020 2:31 PM
19	Strongly support	10/10/2020 12:31 PM
20	Popular and vibrant	10/10/2020 12:10 PM
21	The facility is to far out of town and should be not developed by public money, shobnall fields is more central	10/10/2020 11:43 AM
22	It is without question a fantastic sporting institution and has great people involved with the club, I just feel that the location does not reflect the needs of Burton Residents on the whole, I feel the existing peel croft has historical importance to the town and should not be bulldozed for a another supermarket. I would have much preferred a finacial package where by the council bought the ground on a lease basis from the Burton Rugby Club and reworked the ground to be a multi use sporting and events ground, with green energy initiatives, and encouraging other sports to be showcased to the town, sports such as open air boxing	10/10/2020 11:33 AM

events, bespoke football and rugby events, religious prayer events, gaelic sporting events of Hurling, Camogie, football would all be aspects to explore due the the strategic position between large cities in the midlands

23	Fabulous club with 150 years of history. Engages with all areas of the local and wider community across all ages and fully inclusive both as a sport and as a club	10/10/2020 11:20 AM
24	Would benefit a huge amount of the community	10/10/2020 9:42 AM
25	It's vital to provide modern future proof facilities for a growing club which is a big part of the community	10/10/2020 8:53 AM
26	I cant remember the last time the town invested in health/lifestyle/wellbeing/community spirit. As far as I can see thos could encourage all of that. Particularly within the new community that will be built there. Burton Rugby Club looks could not financially afford this on their own so without the investment this option would never happen	10/10/2020 8:35 AM
27	As long as it's for everyone not just those who can afford to join	10/10/2020 12:01 AM
28	The rugby club should pay for this, plus it's not in the town.	10/9/2020 8:59 PM
29	How van this be included in a town centre regeneration exercise if it is out at Branston. I am a Branstonian and see this as being another old pals act in process.	10/9/2020 8:00 PM
30	The rugby club is inaccessible to most, way out of town, floods frequently and any development should have been factored in to the initial costs. It's been there 5mins!	10/9/2020 3:05 PM
31	Elite sport is good. This is elitist sport at the expense of more grass roots sport in more urban areas outside of the centre.	10/9/2020 1:54 PM
32	Unable to make an informed decision	10/9/2020 1:53 PM
33	The Rugby club should be self funding. I havve no interest in Rugby and feel that the money could be better spent on facilities that everyone can enjoy	10/9/2020 1:15 PM
34	This is too far away to be of benefit to the less well off areas of town, only likely to benefit those already well off in health and financial terms.	10/9/2020 12:44 PM
35	This will give more to locals sportwise so long as the building is regenerated as well	10/9/2020 11:32 AM
36	Let rich sports clubs get funding from commercial interests & top tier sport	10/9/2020 11:13 AM
37	It's in Barton, outside the town centre. This does not help our town centre. But I have heard from locals who have supported this plan in this consultation because they are ASSUMING you are talking about redeveloping that eyesore plot in the centre of the town centre that the rugby club sold and vacated. That would make more sense. And I've also heard a rumour that this same project for Barton was discussed and rejected by ESBC some years ago.	10/9/2020 11:11 AM
38	I really believe i'm this project and fully support Project A: phase 2, so the SOONER THE BETTER!	10/9/2020 9:40 AM
39	We have plenty of underused sports facilities already. This area also floods badly so would not be a sound investment.	10/9/2020 9:40 AM
40	It has taken so much time and effort to secure the new facility, in order that new development can go ahead at the old site, hopefully for the benefit of the town, that we should support this new community sports facility.	10/9/2020 12:51 AM
41	a. To achieve a quality of life you need to be able to provide the means by which everyone can participate in sport. The rugby club has a long history in providing sport for everyone, namely boys, girls, women, men and the ground they have acquired has the capacity to include other sports such as football, cricket, tennis, netball to name some. In addition the facilities can be used by the local community for social gathering or as a destination for walkers and cyclists. This will provide employment for the area and a much needed boost to the sporting facilities in the area.	10/8/2020 10:12 PM
42	Other sports facilities could use the support	10/8/2020 9:04 PM
43	Revitalise where needed current facilities - Shobnal Fields Leisure Complex	10/8/2020 6:04 PM
44	If this was supported it would eliminate Shobnall Leisure Complex and no doubt Cushman & Wakefield and Lathams would be building housing there !	10/8/2020 3:28 PM
45	The re-siting on the rugby club has been to the detriment and ruin of Tatenhill village.	10/8/2020 1:35 PM
46	Great idea, grys peolle active and will help their wellbeing too.	10/8/2020 1:22 PM

47	I support the development of the Rugby Clubs ambitions to have a stadium etc and making the facility the dream they wanted after leaving Peel Croft. I don't support the development of an Artificial Turf Pitch, we have many in the area and oversubscribed according to Sport England's pitch models. By having additional facilities like, this it would have a detrimental effect on current facilities in the town. Further consultation with relevant organisations is needed in this area.	10/8/2020 1:05 PM
48	Rugby club having moved will provide for other sports for local people, also generating income into the town.	10/8/2020 12:25 PM
49	The concept of a Sports Hub to provide for differing sports to Shobnall is badly needed.	10/8/2020 10:01 AM
50	Burton has its own facilities which could be enhanced	10/8/2020 9:40 AM
51	this will be amazing and will add great strength to the town and allows more people to get involved	10/8/2020 9:17 AM
52	The club has been an excellent part of the Burton community for a long time.	10/8/2020 9:15 AM
53	This is not just about Rugby but a community facility for many sports and facilities for all ages 0-90 years old, part of the delivery of Burtons Sports plan.	10/8/2020 7:36 AM
54	Would have liked the old rugby club investing in instead, but since the new one is here I hope it gets lots of investment and use	10/7/2020 11:31 PM
55	So many kids and parents will benefit from this!	10/7/2020 6:37 PM
56	are they not self sufficient	10/7/2020 5:10 PM
57	Could it be linked to a parkrun proposal, possibly incorporating the wildlife corridor adjoining the Branston Links scheme	10/7/2020 5:09 PM
58	Burton RFC provides a safe structured environment for all ages to access sport and activities that would not be possible elsewhere. The club is strongly supported by volunteers who make a massive difference to lives of young people.	10/7/2020 5:06 PM
59	With the wash lands constantly under water for at least 6 months of the year the rugby club needs the support of the local council and local business to develop a thriving club. In this day and age with the need to get our kids fitter and healthier what better way to invest. With St George's up the road supporting football it would be tremendous for a worthy clubhouse for a ever growing club. Come on let's do the right thing here.	10/7/2020 5:04 PM
60	Continue the long successful history	10/7/2020 4:52 PM
61	Local sport brings the community together and is a benefit both with health and with social opportunities.	10/7/2020 4:26 PM
62	Tremendous initiative bringing sport together both now and in the future	10/7/2020 4:25 PM
63	The Rugby club offers a friendly sporting atmosphere to all mixed ages from U5's to seniors of all abilities	10/7/2020 4:08 PM
64	Community access to sports is important, more detail is required before I can fully support the proposal	10/7/2020 2:34 PM
65	Concern around the severe flooding in this area and how they will affect any developments.	10/7/2020 2:19 PM
66	An amazing opportunity to support a community club & provide facilities to be used by the whole town	10/7/2020 11:21 AM
67	Can't see that it will emerge as anything other than a Rugby Club	10/7/2020 6:51 AM
68	Proper sporting facilities capable of covering a variety of community sports are vital to the health and wellbeing of the community and engaging young people in positive activities	10/6/2020 8:06 PM
69	My kids and many others get an incredible amount from Burton Rugby club. The new facilities are already a big improvement but more is needed.	10/6/2020 6:20 PM
70	So long as funds are directed to local Burton sports initiatives too	10/6/2020 6:02 PM
71	I feel that the rugby club should benefit from this project as they are a great example of the community that is Burton on Trent. They have literally changed my daughters life since she's been at the club for the last 18 months. We didn't realise the community spirit that the club brings until we joined. Many of the people involved being volunteers who work so hard in all aspects required from coaching to admin. They are a real credit to the area. Their kindness, club ethos and dedication to the children who attend is truly inspiring. From ages 3 - 16, teaching them valued skills not just in rugby but life too. I can only speak for my	10/6/2020 4:22 PM

daughter , she has found focus, determination, a great work ethic, compassion, confidence since joining . Your project would help the club maintain these standards and provide a place for many more members of the community to come and thrive.

72	Again bus links need to be considered.	10/6/2020 3:24 PM
73	Think this is vital also phase 3 would also be clinical	10/6/2020 2:38 PM
74	Is an out of town site, and will only encourage traffic. Acces by public transport/ bicycle is poor and will exclude those without cars.	10/6/2020 11:28 AM
75	This facility will be isolated from the town centre. Most used by the more affluent Branston end of town and Barton A38 end. Investment in the existing Shobnall Fields seems more sensible.	10/6/2020 11:06 AM
76	As a member of Burton Rugby Club since 1963, I fully support the club that has given me, and the local community, so much pleasure and friendship over the years.	10/6/2020 10:50 AM
77	As long as there is sufficient parking spaces.	10/6/2020 9:46 AM
78	There are other sports in the town, especially watersports, 2 rowing clubs and 2 canoe clubs (one with no facilities at all). is there an opportunity for helping those clubs with a big presence in national competitions to become major players?	10/6/2020 9:10 AM
79	Enhanced sports facilities welcomed, especially for young people.	10/6/2020 8:42 AM
80	It will be wonderful to have such a ground breaking project in our town. I have heard that apart from providing an excellent community facility, it is going to be carbon neutral. This will be a first in the country and put burton back on the map.	10/6/2020 8:27 AM
81	There has always been a strong following of the rugby club in Burton and long May this continue with their new ambitious project, can't wait to use the facilities	10/6/2020 8:23 AM
82	It would be good to increase the sustainable travel access to the rugby club and sports hub	10/6/2020 8:17 AM
83	Whilst in general I do support the provision of sports facilities and making them available to the community, I am not sure that this is an area in which Burton is particularly lacking and feel that this is not a priority.	10/5/2020 10:11 PM
84	The benefits both mentally and physically to the local community would be immense, especially after this challenging time.	10/5/2020 9:38 PM
85	The whole continues to help the young players maintain safety without have to cross as busy road.	10/5/2020 9:21 PM
86	Any extension of sports facilities would be helpful although given the condition of other sporting areas eg Shobnall and Newton Rd what will be done re sustainability	10/5/2020 8:51 PM
87	Great plans that would benefit a range of children and adults, improve fitness and wellbeing.	10/5/2020 8:50 PM
88	No need for it, cannot fill the shops we have	10/5/2020 8:50 PM
89	For people to access sports and fitness a hub is desperately need in the town especially if you wish people to cycle over the new bridge you propose. Sjobnal area is not central to the Burton community	10/5/2020 8:24 PM
90	We should encourage all leisure-sports-buisnesses to remain in the town where local transport connections are better and other local businesses will benefit for the increased foot-fall.	10/5/2020 8:02 PM
91	Definitely support, Absolutely fantastic club , heart of the community in burton.	10/5/2020 6:35 PM
92	It's a private club/business	10/5/2020 6:07 PM
93	Burton rugby club is the heart of the community and is a great family fun environment to be in . Members of Burton rugby club are like one big family it always offers a wonderful safe environment for all	10/5/2020 4:51 PM
94	An excellent opportunity to invest in an easily accessible site, in the close vicinity of the new school and create a widely beneficial community amenity.	10/5/2020 3:37 PM
95	Burton RFC are a strong community club with over 400 young players both girls and boys of all ages and get them into sport and exercise so important for the obesity and mental health crises the UK is facing. It is being developed to offer a variety of sports to cater for a wider inclusion of the community	10/5/2020 3:17 PM
96	This is a positive community development which will provide a social glue to promote youth	10/5/2020 2:51 PM

	participation in sports and improve mental health and well being	
97	This would be a fantastic project for all of the people of Burton	10/5/2020 2:38 PM
98	Wrecking more fields when Meadowside and Shobnall aren't utilised fully. Need to improve current stuff not build more rubbish.	10/5/2020 1:39 PM
99	If other sports including cricket are definitely included and not just put on proposals to get funding!	10/5/2020 1:09 PM
100	These projects might never be fully achieved without being included in this plan	10/5/2020 12:59 PM
101	Our children play for Burton Rugby Club and we strongly support this project in order to assist with building a rugby club that is fit for purpose for many years to come and feel that it will have a big impact on the local community, not just for Rugby but other sports too that will be using the ground.	10/5/2020 12:41 PM
102	with an increasing population good sport facilities are essential. Healthy young people are key to the future. This also builds on the private development funded by the club.	10/5/2020 12:28 PM
103	This would be massive for the town and the new housing estates. Lots of opportunities for living an active and healthy lifestyle.	10/5/2020 12:25 PM
104	This is needed for the club	10/5/2020 12:22 PM
105	They moved out or town	10/5/2020 12:12 PM
106	The rugby club has worked tirelessly for the past few years to deliver a wide range of sporting activities for residents of Burton. The new ground at Tatenhill is an impressive result of the club's efforts to support over 700 playing members from ages 5-65. A new club house and multi use playing surface will be of benefit to multiple sports and will practically benefit more people on a week to week basis than many of the other schemes that are up for review in this document.	10/5/2020 11:07 AM
107	Burton Rugby Club celebrates 150 years of rugby in the town today, they must be doing something right so this project is critical to their future.	10/5/2020 10:18 AM
108	Obesity is a major problem in the uk and in Burton . I there for support any plan that encourages people of all ages and genders to get out and excersise together with the added benefits of socialising and encouraging friendship	10/5/2020 10:15 AM
109	The rugby club's proposal to provide a hub for a multitude of sports is already being seen in the form of junior and senior football and junior and senior rugby. Both sports are being played by boys and girls, men and women; and although competitive rugby cannot take place at the moment it is fabulous to see so many people and children taking part in physical activity. It was always going to be important but now in today's climate of living with Covid it is even more important to provide a safe environment for young people to exercise outside. At the moment the rugby club are managing to provide this opportunity With limited facilities; with a new club house and all weather pitch this would be even better. I also believe that such a facility could link up with local GP practises to provide support in their gym for rehabilitation after major illnesses.	10/5/2020 9:29 AM
110	Burton on Trent is currently celebrating 150 years of rugby, and is one of the oldest clubs in the country. It was originally formed by brewery workers from breweries that are still active today. It would be a magnificent proposal to invest in a sport that has one of the largest junior sections in the country, encouraging fitness and good health in our youngsters, a common goal of the government. Make Burton proud with a Rugby Club it deserves and enjoyable times for the next 159 years.	10/5/2020 9:20 AM
111	A valuable community asset to the whole town	10/5/2020 9:06 AM
112	in these strange times community sport will play a massive role in providing a sense of well being that we all need not just the physical aspect but also our mental health.	10/5/2020 8:47 AM
113	Traffic implications for neighbouring villages	10/5/2020 7:06 AM
114	You rented out and then bailed out with £200,000 of taxpayers money the existing leisure services whilst small companies and individuals had no bail out...now you expect me to support this??????	10/4/2020 11:57 PM
115	The delivery of this project will be essential to support the recovery of our town during and post COVID 19. The link to the adjacent housing developments is essential in providing a community hub for this growing community and for the rest of Burton. This project will support 10's of 1000's of our community in a most positive way.	10/4/2020 11:15 PM

116	Burton Rugby club sold their existing town centre site for several million pounds to a developer. They are planning to build a new club house at Branston on the previously constructed new pitches. It appears they now wish to further develop the site for other sporting organisations to use such as Cricket, Bowls and Tennis. Existing sports clubs will no doubt be relocating onto this site after selling off their existing premises .I am dubious that Town Fund monies were designed for such a development and Sports England and other funding would already be available . Is it proposed that this be match funded by the sporting organisations? In principle this intervention has some merit but i could not find assisting sporting organisations mentioned as one of the types of schemes that would meet the criteria. It is not clear why that area of the town has been targetted for Town fund monies to be spent or how this is seen as a regeneration project.	10/4/2020 9:40 PM
117	What will happen to current facilities at Shobnall	10/4/2020 2:37 PM
118	Need to develop sports pitches closer to town	10/4/2020 1:59 PM
119	How is this using money wisely, when there has already been great investment here, this proposal does not explain how this is a good use of money, when a lot has already been spent here. Great in theory, but there is little detail.	10/4/2020 1:23 PM
120	We have sports facilities in the town that could be enhanced. How did thid project get longlisted? Were the rugby club invited to submit a proposal? Were other organisations offered the same opportunity?	10/4/2020 12:33 PM
121	At present there is absolutely no coherent plan as to how this "multi sport hub" will be delivered and must have a plan before allowing to progress which has been out to public consultation. Have to ask why govt money / my money would be spent to support this scheme when other local sports hubs are in desperate need of support. They have just sold peel Croft so should not need. A handout particularly if Grange Tennis club also sell their land!!	10/4/2020 10:19 AM
122	There is no strategic need for an additional 3G pitch in the Burton area according to the local football facilities plan. Plus the rugby club already have planning and funding confirmed to build the clubhouse and this is planned to start before this funding is confirmed so are you funding retrospectively?? How can you provide funding to a private members club and ensure it's a community facility? Local netball clubs are looking for an indoor Soave but outdoor courts (where they have sufficient capacity) and therefore you are funding things without an identified need? The tennis club were planning on selling their ground to fund the move to the site so where is this funding going? Again proving funding to private members organist and not the community!!	10/4/2020 10:10 AM
123	Needs to be a development at a public facility - not a private facility owned by individuals. Should be developed at shobnall	10/3/2020 12:44 PM
124	Help the existing clubs to survive. E.G. the wastelands sports club. These voluntary run clubs desperately need help to survive and become sustainable. They are Run down etc.	10/2/2020 2:24 PM
